

## 2 Sided Flooring Display Rack with Wheels

### Parts List:

2 Frames (front and back)

1 Bottom Frame

12 Screws with Washer and Bolt

4 Wheels

2 Metal Headers

### Rack Assembly Instructions

- 1.) Use 1 screw, 1 washer and 1 bolt to connect each wheel to bottom of frame (4 wheels total). Insert screw through top of frame and bring out through hole on wheel assembly and screw on nut. See point A.
- 2.) Using a screw, washer and nut attach front and back frames to bottom frame. Front and back frames are the exact same. See point B.
- 3.) Attach header to top of frame on each side using a 2 screws, 2 washers and 2 bolts per side going through holes on top of front and back frame pieces. See point C.

Metal Headers use 2 screws with washers and nuts to attach on each side to top of frame

Insert screw through top of frame and through hole on wheel assembly. Attach nut to secure in place.
